Part III DETAILED ACTION

1. Claims 14-33 are pending.

2. Upon a review of provisional Application 60/019,390, the instantly filed claims have an effective filing date of 7-23-97.

The following new ground of rejection is necessitated by Applicant's amendment filed 12-23-02

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 14-21 and 23-33 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has no written support in the originally filed claims or specification for an antibody that binds to SEQ ID NOS 2, 4, 6 or 8 but does not bind MADM.

Applicant's arguments filed 12-23-02 have been fully considered but are not found persuasive.

Applicant argues they have support for a KUZ protein that does not have binding specificity that is distinguishable from MADM and so they therefore have support for the claimed antibody. The Examiner disagrees because antibodies and the KUZ proteins are biologically distinct molecules it would not flow inherently that because Applicant distinguished the polypeptide's biological from MADM that they intended to also disclose antibodies that distinguish from KUZ and MADM.

5. Claim 22 as presently recited is allowable.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing

date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
